

I am opposed to HB4115. Allowing bars to serve alcohol until 4 a.m. increases the likelihood of intoxicated drivers being on the roads at the same time as early morning commuters and could lead to an increase in alcohol-related traffic crashes and deaths. As a mother of 3 who drives my children to school in the early morning, I am very concerned that my children and I could be at a higher risk of meeting an intoxicated driver on the road should the extension to 4 a.m. alcohol sales be allowed. I urge the House Regulatory Reform

Committee to do the responsible thing and keep our roads safe for early morning commuters like myself and vote against HB4115.

Thank you,

Kelly Ainsworth
